Abraham Amini, Salm Mohammed

TABLE OF CONTENTS

01 Overview

02 Components

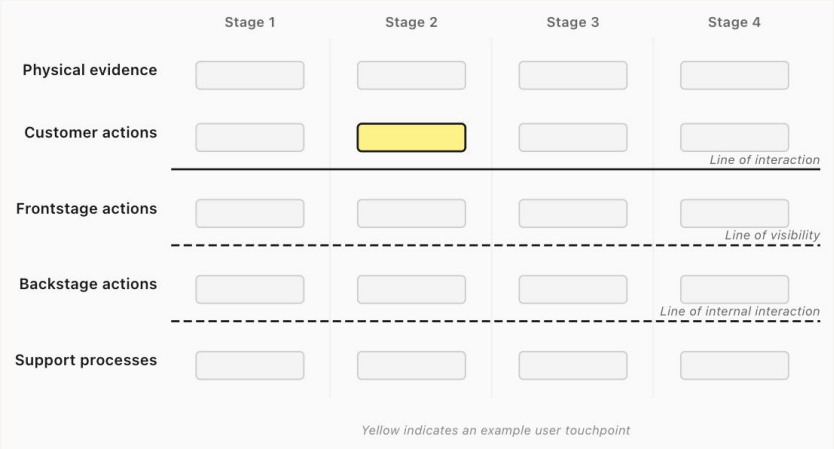

03 Group Activity

04 Connection & Applications

05 Benefits

What is a Service Blueprint?

- Visualizes relationships between **several** service components based on user journeys
    - Maps people/evidence + touchpoints
- Spots easily **missed** parts
    - Hand-offs between teams, unaccounted hidden work, vulnerable spots
- Ideal for **complex** experiences w/ cross-functional effort
    - **HRIS Project:** spans across multiple departments

How to Read a Service Blueprint

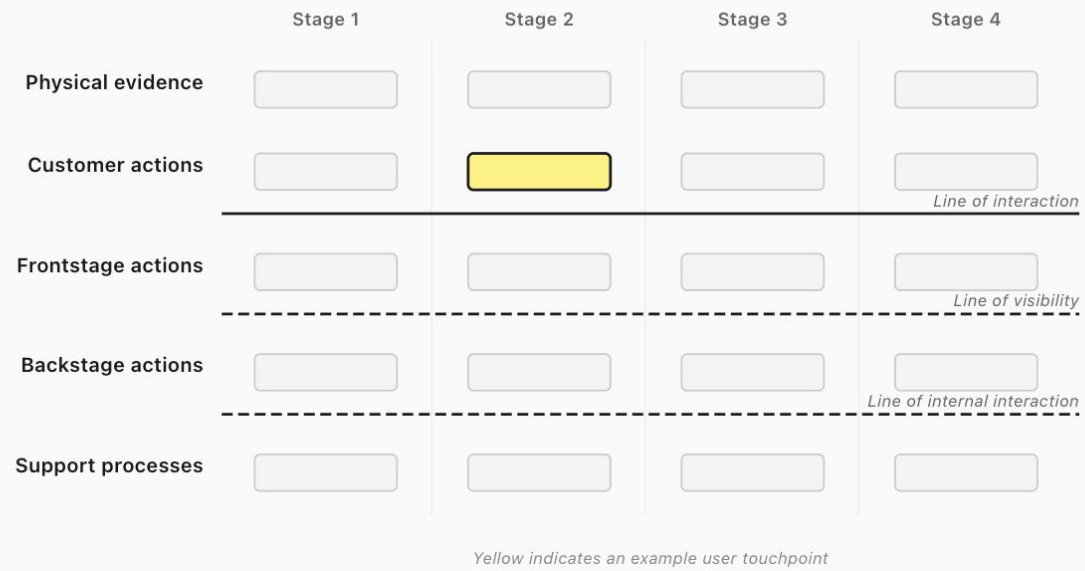

Fig 9.1 — A service blueprint organizes work into four stages and five bands, separated by three lines

Components of a service blueprint

- **Physical evidence** = what the user sees, touches, or receives
- **Customer actions** = user actions at each stage (user's perspective)
- **Frontstage actions** = employee actions visible to user.
- **Backstage actions** = behind the scenes work supporting frontstage
- **Support processes** = systems & policies keeping service running

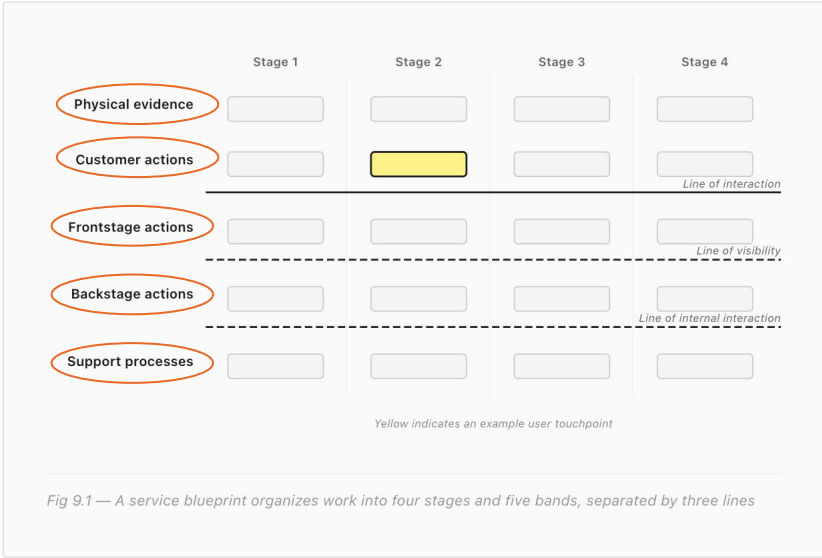

Fig 9.1 — A service blueprint organizes work into four stages and five bands, separated by three lines

	Stage 1: Search for advising options	Stage 2: Book appointment	Stage 3: Attend appointment
Physical Evidence	Advising website portal		Meeting link/office sign
Customer Actions	Search + filter directory		Joins meeting (virtual or in-person)
Frontstage Actions	Portal displays advisor list and available time slots		Advisor greets student, reviews academic record
Backstage Actions	Scheduling system queries advisor calendars		Advisor pulls student profile and course history from system
Support Processes	Advisor calendar integration; student identity / auth system; availability policy rules		Student information system; video conferencing platform; notes/advising record tool

	Stage 1: Search for advising options	Stage 2: Book appointment	Stage 3: Attend appointment
Physical Evidence	Advising website portal	Confirmation email + Calendar Invite	Meeting link/office sign
Customer Actions	Search + filter directory	Select time slot, submit booking request	Joins meeting (virtual or in-person)
Frontstage Actions	Portal displays advisor list and available time slots	Portal confirms booking and sends confirmation email	Advisor greets student, reviews academic record
Backstage Actions	Scheduling system queries advisor calendars	System Reserves slot, Notifies Advisor, Creates Calendar Event	Advisor pulls student profile and course history from system
Support Processes	Advisor calendar integration; student identity / auth system; availability policy rules	Notification Service, Booking Database, Calendar Sync	Student information system; video conferencing platform; notes/advising record tool

Connection to HRIS Project

Helps teams work together

- Maps workflows between HR, Payroll, Legal, & backend systems
- Shows how different departments interact during compensation reviews & reporting

Helps identify problems

- Identifying delays, inefficiencies, & manual processes
- Reveals problems caused by disconnected systems, spreadsheets, & repetitive manual data validation

Supports better decision-making

- Supports fairness, transparency, & compliance
- Helps ensure compensation decisions are based on consistent data & easier to audit/review

Application to project

Frontstage (Visible to Users)

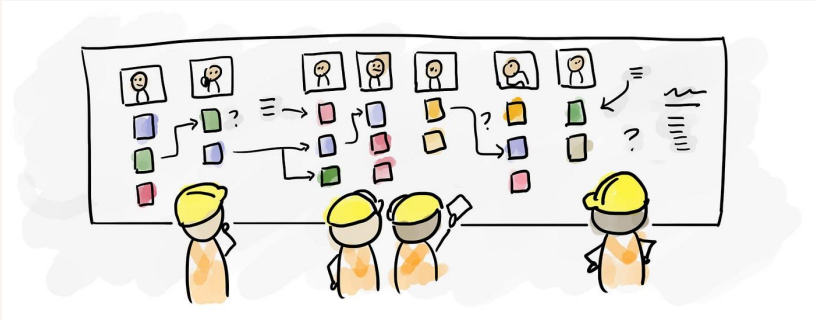

- **HR Team:**
  - Reviews Compensation Dashboard
- **Managers:**
  - Approves Pay Changes
- **Employees:**
  - Views Compensation History
  - Receives Compensation Change Notifications

Backstage (Hidden Support)

- Data Synchronization Between Systems
- Audit Logging Trail
- Compliance Report Generation
- Automated Pay Disparity Flagging

Benefits of Service Blueprints

- **Shows the full system**
  - Frontstage + backstage processes
- **Helps identify problems**
  - Delays, inefficiencies, weak points
- **Improves user experience**
  - Finds pain points in the journey
- **Helps teams work together**
  - Connects departments and workflows
- **Supports better decision-making**
  - Helps businesses improve services strategically

THANK YOU FOR LISTENING!!!
